

The CaseViewNet Browser Edition opens to the Transcript view. Two different views are available – Transcript View and CART View. To switch to CART View,

click  and then click .

### TRANSCRIPT VIEW:

- The realtime text automatically scrolls. Moving your cursor to another location in the file temporarily pauses the scrolling of text until you click .

- To mark text, simply double click the text to mark a line. 

- To search for marks or text, click . In the Search field, do either of the following:
  - To search for marks, press Spacebar.
  - To search for text, type the text.

Click any search result item to move the cursor to that location in the transcript. Click  to return to the scrolling text. To hide the Search pane, click  again.

- To e-mail the current version of the transcript, click  and then click . The e-mail will be sent to the e-mail address you provided when you logged into the CaseViewNet Browser. There will be two attachments with the naming convention Transcript – year – month - day, one in ASCII (.txt) file format and one in LiveNote® (.ptf) compatible file format. The e-mail feature is only available if the reporter allows you to save the file.
- To disconnect from the realtime session, click .
- To access display options or switch between Transcript and CART View, click . To hide the options, click .

## CART VIEW:

- The caption text automatically scrolls in Full Screen mode. To exit Full Screen, press **Esc**. Moving your cursor to another location in the file temporarily pauses the scrolling of the text until you click .
- To search for text, click . In the Search field, type the text. Click any search result item to move the cursor to that location in the caption text. Click  to return to the scrolling captions.
