WHEN YOU TAKE TRAINING WITH CATHRINE, YOU CAN EXPECT...

"...A fun-packed session filled with patience and lots of hands-on scenarios. I strive to make sure you are satisfied with your training and will always be available for follow-up after sessions to reinforce concepts taught. I want to make sure you get the best training for your money."

TESTIMONIALS:

"For well over a decade, I have utilized Cathrine as my go-to software trainer. She is always our preferred trainer for our yearly reporter conferences in Wyoming, as she works diligently to know each of us and our individualized needs. She always customizes and tailors her training to our specific requests. Perhaps her best-known asset is her unique ability in a large group setting to provide training to all levels so that the quicker learners are able to move forward with topics as the more technologically challenged reporters get individual time with her to tackle more difficult topics, such as auto indexing. Cathrine is extremely patient and has extensive knowledge of our software and all the shortcuts to editing that make each one of us more productive in our work.

At least once yearly I, along with a small group of reporters in Colorado and Wyoming, host a day of training in one of our homes with Cathrine. As an official reporter herself, she helps each of us customize our keyboards, function keys, and has helpful shortcuts and useful macros. She shows us any new updates and is always generous with her time after the session is concluded for follow-up support by phone or email.

Personally, as a 26-year reporter, I do not know what I would do without Cathrine. Whenever I have encountered glitches for any reason due to updates or changes in hardware, Catherine has gone the extra mile to make herself available to me remotely to quickly get me back on track. She has helped me troubleshoot when no one else could discover a solution. Simply stated, she is the best trainer ever and truly is an asset to me in my reporting career."

Tammy Fleming, Cheyenne, Wyoming
