TESTIMONIALS:

"I am a freelance court reporter, and it is my pleasure to write a testimonial letter highlighting the qualities of Larry Paiz as a Case CATalyst trainer. I will begin by saying that unlike some of my colleagues, I am not computer savvy. I absolutely love the Case CATalyst software and every update. The software is amazing in what it will do and the time it will save. However, it is not something I easily grasp and oftentimes I get overwhelmed. Each and every time I have called Larry Paiz, he has patiently explained and helped me with every problem I have encountered, the big problems as well as the small. His knowledge of the software's

capabilities are incredible. He has helped me immensely with my realtime commands, which in turn has shortened the turnaround time on my depositions. On more than one occasion I have called him when my software wasn't "functioning properly" on some realtime command we had set up. Even if it had been months since we spoke, he almost always remembered exactly what we had done, and, yet again, would fix the problem.

Larry is the consummate professional. He is easy to get in touch with and does what he says he is going to do when he says he is going to do it. I am extremely grateful to be able to call Larry Paiz for extra training. When he's conducting a training seminar in my area, I try to attend. Other Case CATalyst seminars I've attended go way too fast and/or get technical and over my head. Larry's seminars are concise and easy to understand. I always leave them feeling like it was money well spent. Larry Paiz is an asset both to Stenograph and to the reporters he trains."
