

## What is APEX?

APEX is an intelligent ecosystem that seamlessly connects agencies to reporters through Stenograph's industry-leading court reporter software, CATalyst. It is the only solution that allows you to handle all aspects of a job, from scheduling to billing, and everything in-between, from a single application.

APEX enables agencies and reporters to increase revenue, reduce operating costs and improve ease of doing business, making you up to 50% more efficient and doubling capacity. Without any additional investment in people, software, or systems, APEX can save your agency up to 800 hours a year and provide increased upsell opportunities by up to \$1,000 per job.

### COURT REPORTER SOFTWARE INTEGRATION

Integration with Stenograph's industry-leading court reporter software, CATalyst, allows agencies to communicate with reporters in a streamlined, dedicated manner while reducing the time it takes to schedule a reporter. Agency capacity for scheduling and billing is doubled, providing an overall savings of up to 1-2 hours a job.

### ACCESS TO RESOURCE PROFILES

Easily view reporter rates, skills, services, certifications, and travel considerations. The onboarding experience is enhanced, and the process is streamlined, increasing efficiency by 50% and saving an agency up to 30 minutes to 1 hour per resource.

### JOB CREATION WORKFLOW OPTIMIZATION

Emails and official documents, like Notice of Deposition, are automatically ingested into APEX. Details are used to populate job tickets, reducing the time it takes to create a ticket by up to 50%.

### AI POWERED SCHEDULING

Assists agencies in evaluating job needs and compares them to resource services, helping agencies select the right resource for the job and improving efficiency by 50%, saving approximately 30 min per resource.

### AI ENHANCED SERVICE OPPORTUNITIES

APEX suggests additional services based on client history or standing orders, increasing agency revenue opportunities by up to \$1,000 per job.

### BLOCKCHAIN SECURITY

Powerful technology safeguards confidential information and preserves the chain of custody for the transcript and other important documents.

### YESLAW PRODUCTION TOOLS

APEX integration with YESLaw provides you with an integrated workflow that also handles video and audio syncing. There is no additional monthly charge for YESLaw which includes auto-sync and requires no upfront investment.

### BILLING AND PAYMENT SIMPLIFICATION.

Review invoices, bill clients, and pay reporters, all from within APEX.
