

What is APEX?

APEX is Stenograph's new solution for reporting agencies which covers their entire job flow, from scheduling to billing, and everything in-between, all from a single application. But, APEX isn't just for agencies; there is value for reporters who connect to the APEX ecosystem through Stenograph's industry-leading court reporter software, CATalyst, or directly through APEX.

It's free for reporters to connect to APEX! The integration of CATalyst and APEX makes reporters more productive, providing a month of savings and up to \$5,000 in revenue opportunity a year. Reporters who connect to APEX can earn, on average up to, \$400 in Loyalty Points a year to use towards Stenograph products.

APEX FEATURES	CATalyst v21.5	APEX WEBSITE

Participate in a free Loyalty program where you can earn loyalty points for APEX interactions that can be used towards Stenograph products like writers, software, and services.	X	X

It's as easy as 1-2-3 to connect to APEX.

1 Connecting to APEX

- CATalyst: If you are on CATalyst version 21.5, connecting is easy! Follow the prompts when you complete your download or select APEX from the top menu.
- Non-CATalyst: Go to <https://apex.stenograph.com> and follow sign-up directions.

2 Completing Your Profile

- Your profile is where you can communicate rates, skills, services, travel considerations, and certifications to agencies, eliminating all those back and forth phone calls. While you there are there, be sure to join Stenograph's Loyalty program!

A screenshot of the APEX user profile completion form. The form is titled "Information" and is divided into several sections: "Personal Information" (Name, Email, Phone Number, Address), "Company Information" (Company Name, Address, Website), and "Profile Information" (Profile Picture, Bio, Skills, Services, Travel Considerations, Certifications). The form is partially filled out with example data.

3 Find an Agency

Now that you are part of the APEX Ecosystem, the next step is connecting with an agency. If you are a full-time employee of an agency, you can still connect, and make your profile private.

- CATalyst: If you are on CATalyst version 21.5, you can find agencies right from your desktop. Just select APEX from the menu at the top and select Agencies, now you are ready to start your search.
- Non-CATalyst: Sign in to APEX and select Agencies from the top menu, then start your search!
