CATalyst® VP

CATALYST VP IS A ROBUST SOLUTION for voice reporters wanting to create impressive transcripts, deliver them in an array of formats and venues, and work more productively than ever before.

Faster Drop Rate

You'll see results on your screen faster with CATalyst VP than with Dragon Naturally Speaking alone.

Intelligent Dictation Features

Simply say what you hear and CATalyst VP will format street names, dates, times of day, social security numbers, telephone numbers, measurements, and more with its built-in intelligence.

Audiosync Your Dictation With Text

Record your speech synchronized with room audio and with text. Click and play while editing, proofreading, or even while you are still recording the proceedings.

Fill-In Fields

Insert attorneys, firms, addresses, and more from a list that builds as you work. Never waste time retyping.

Train Dragon Naturally Speaking Without Leaving CATalyst VP

CATalyst VP offers you the choice of updating your voice engine while you are correcting words and phrases. You can improve your Dragon dictation at the same time as you are editing your transcripts.

Speaker Lists

CATalyst VP makes dictating and inserting speaker names much easier. By Lines, Colloquy, and General Speaker formatting will happen automatically as you dictate. If you need to insert a speaker name later while editing, CATalyst VP understands what the speaker formatting should be based on context in the transcript.

Voice Commands Dictionaries

Invoke macros, realtime commands, and includes with your voice. Imagine the time you will save inserting title and certificate pages, standard parentheticals, and more.

Integrated Video Training

Learn something new in three minutes or less by watching a video right inside CATalyst. Start with Essential Skills and then move on to advanced editing and more to increase your productivity.

Brilliant Transcript Production Tools

CATalyst VP is more than just a dictation and editing program. It has all the transcript production tools you need:

- AUTOMATIC INDEXING
- CONCORDANCE/WORD INDEXING
- ELECTRONIC EXHIBITS WITH PDF BOOKMARKS
- EXPORT TO PTX, RTF/CRE, ASCII AND HTML
- CASEVIEWNET REALTIME COMPATIBILITY WITH RAPID REFRESH OF EDITS
- CATALYST CLOUD BACKUP
- FINISH 'EM
- AND MUCH MORE!
