

## All-In-One Remote Legal Proceeding Solution

CaseTestify is Stenograph's all-in-one purpose-built legal platform that provides users a simplified way of taking online legal proceedings. CaseTestify combines secure video conferencing, interactive exhibit management, and cloud storage of deposition assets in a simple to use, professional interface. The platform allows users to access all the tools needed to take virtual and hybrid proceedings using our cloud-based platform, accessible with a single, secure link.

### Exhibit Management

Exhibit management makes it easy for court reporters and attorneys to upload, stamp, and annotate digital exhibits, mirroring in-person deposition workflows with an intuitive private preview and public viewing tab system for controlled exhibit sharing.

### Video Conferencing

High-definition video capture records directly to the cloud with flexible recording modes, enabling an integrated timestamp, allowing agencies to immediately deliver a legal-ready video to their clients if needed.

### Case Management

Proceedings can quickly and easily be linked under a single case. Plus, uploaded exhibits are automatically linked and accessible across proceedings within a case.

# CaseTestify® vs. Other Platforms

CaseTestify, the only all-in-one, purpose built solution for remote legal proceedings
