CaseViewNet® for MAXScribe™

With CaseViewNet for MAXScribe, users can now offer realtime services to their clients! MAXScribe uses an internet connection with a CaseViewNet license and Cloud Session Code to securely transmit realtime text to anyone, whether they're in the same room or located remotely. To get started, clients simply need to log on to caseviewnet.com on any device with an internet connection and input the session code and password.

FEATURES OF CASEVIEWNET FOR MAXSCRIBE:

✓ Send realtime text to viewers in the same room or remote

✓ Use Rapid Refresh™ to instantly update your entire realtime transcript

✓ Maintain complete control over viewer rights to the transcript

✓ Monitor all connections to your realtime to ensure confidentiality when necessary

✓ Highly secure encryption of the realtime connection and text

ANYtime, ANYwhere, ANY device! Realtime has never been easier to view! CaseViewNet's powerful realtime viewer gives attorneys, judges, and litigants features such as full refresh of edits, line marking, annotations, word and phrase searching, and internet lookup tools.

Additional purchase of a license and Cloud Session Code is required. STAR members receive a discount.
