

# Stenograph Digital Reporting Academy

The Stenograph Digital Reporting Academy provides MAXScribe™ users with all the tools they need to get comfortable with and start using the software. Our courses set you up for success with lessons like getting familiar with the software and setting it up to your specifications, understanding how to effectively capture the job using MAXScribe, how to use the Phoenix™ ASR engine to translate audio, and how to use MAXScribe's tools to edit faster than you ever have before. Plus, we have additional courses available to train you beyond the basics- like how to collaboratively edit using RealTeam™ and how to produce a final transcript for YesLaw®, and we are adding more all the time!

## FEATURES OF STENOGRAPH'S DIGITAL REPORTING ACADEMY INCLUDE:

- ✓ Role-specific learning paths for digital reporters and transcribers
- ✓ Self-paced lessons allow you to learn at your convenience
- ✓ Clearly stated objectives for each course
- ✓ Step-by-step training videos and helpful handouts
- ✓ Interactive exercises to practice what you learn in the videos

If you are an agency looking for a more customizable training option, the Stenograph Digital Reporting Academy gives you the flexibility to set up groups and learning paths specific to your agency's business model. Access to our Digital Training Academy is included with MAXScribe.
