

Reporter Suite™

The app for court reporters.

Manage your **reports, invoices, payees, expenses, time tracking, case logs** and **accept credit card payments** from almost any device with an internet connection.
Learn more at www.reportersuite.com!

System Requirements

An internet connection. That's all folks. Reporter Suite can be used by PC or Mac on any desktop, laptop, tablet, or phone with just an internet connection.

Report Generation

Full support for generating the latest Federal quarterly and annual AO reports.

Invoice Management

An intuitive workflow makes invoice management within Reporter Suite™ a breeze. Once an invoice is created, a URL is generated that can be accessed by intended parties from any internet connected device. Updates to an invoice are reflected immediately, never re-send an invoice again.

CATalyst Integration

Leverage Reporter Suite's invoice integration from within the "Finish Em" workflow within Stenograph's CATalyst software.

24/7 Syncing Across Devices

A single license allows you to access your centralized, up-to-date information from any device.

Time Tracking

Easily log your time via the dashboard's quick time entry form or the dedicated time tracking section.

Credit Card Processing

Accept credit card payments directly from your invoices! Proofreaders and scopists can also directly invoice reporters.

Expense Logging

Manage both payees and expenses with support for the latest Federal work study categories.

Public User Profiles

Promote yourself while accepting transcript requests via our built-in transcript request form.
